ANNUAL REPORT OF MINING OPERATIONS

The informational requirements of this form are based on provisions of the Mined Land Reclamation Act, Title 40-8, Utah Code Annotated 1953, as amended, and the General Rules as promulgated under the Utah Minerals Regulatory Program. An operator conducting mining operations under a Notice of Intention must file an annual operations and progress report (FORM MR-AR) with the Division.

I. General Information

1. Report Time Period: From (mo./yr.) 1/93 To (mo./yr.) 1/94
2. DOGM File Number (Mine No): M /041 /008
3. Mine Name: Jensen Quarry
4. Mineral(s) Mined (or permitted to mine): Gypsum
5. Type of mine ☒ Surface Mine or ☐ Underground Mine
6. Legal Description (Location of Lands Affected):
1/4, 1/4, Section 22, Township 22S, Range 1W
1/4, 1/4, Section 32, Township 22S, Range 1W
1/4, 1/4, Section 15, Township 22S, Range 1W
7. Name of Operator or Company: United States Gypsum
8. Permanent Street Address : Corporate: 125S Franklin St, Chicago, Ill.
City, State, Zip: Plant: PO Box 570160, Sigurd, Utah 60606-4678
Phone: (801) 896-4484 Ext. 40 84657
9. Company Representative (or designated operator):
Name: Larry Pawlosky
Title: Quarry/Mill Manager
Business Address: P.O. Box 570160
City, State, Zip: Sigurd, Utah 84657
Phone: (801) 896-4484
- ☐ Please check if any of the above information has changed since previous year.

II. Mining and Reclamation

1. Was the mine active during the past year? Yes ☒ No ☐
2. If active, how much ore or mineral was mined? 128,873 Tons

3. How much **additional** acreage was disturbed during the past year? 0

4. Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, and volume of material moved.

No new acreage was disturbed during the 1994 mining year. However, 53,365 tons of shale waste rock was stripped from around the gypsum mineral in 10 existing quarry pits. All gypsum rock production was produced from within the existing quarry pits.

5. How much acreage was **reclaimed** during the past year? 2.5 acres

6. Briefly describe the reclamation work performed during the past year. This description should include methods employed, and an evaluation of the results.

2.9 acres were recontoured with a Cat D-9 dozer matching surrounding ground contours, drainage, and elevations. No reseeding was attempted due to poor weather conditions. This area will be seeded in early spring 1995.

7. What is the total disturbed acreage at years end? 116.36 acres

8. Briefly summarize any mining and/or reclamation plans for the upcoming year.

An estimated 130,000 tons will be required for rock production for the plant production. All production will be from existing quarry pits.

Three disturbed areas all in various stages of reclamation will be reclaimed in 1995. Contouring, fertilizing, and seeding will be done by past successful methods.

NOTE: Section III., "Additional Information" applies only to **large mining operations**.

III. Additional Information

1. An updated surface facilities map should be attached if there have been significant changes since the previous map was submitted.
2. Any monitoring results or other reports that are required under the terms of the approved notice of intention should also be attached.

IV. Signature Requirement

I hereby certify that the foregoing is true and correct.

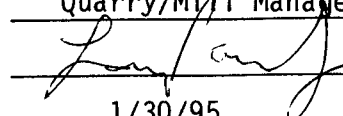

Name (Typed or Print):

Larry Pawlosky

Title of Operator:

Quarry/Mill Manager

Signature of Operator:

Date:

1/30/95
